Applicant UNITRACT SYRINGE PTY LTD			

1.	This international preliminary report on patentability (Chapter I) is issued by the International Bureau on behalf of the International Searching Authority under Rule 44 bis.1(a).					
2.	This REPORT consists of a total of 4 sheets, including this cover sheet.					
	In the attached sheets, any reference to the written opinion of the International Searching Authority should be read as a reference to the international preliminary report on patentability (Chapter I) instead.					
3.	This report contains indications relating to the following items:					
	Box No. I	Basis of the report				
	Box No. II	Priority				
	Box No. III	Non-establishment of opini applicability	on with regard to novelty, inventive step and industrial			
	Box No. IV	Lack of unity of invention				
	Box No. V	Reasoned statement under applicability; citations and	Article 35(2) with regard to novelty, inventive step or industrial explanations supporting such statement			
	Box No. VI	Certain documents cited				
	Box No. VII	Certain defects in the inter-	national application			
	Box No. VIII	Certain observations on the	e international application			
4.	4. The International Bureau will communicate this report to designated Offices in accordance with Rules 44his.3(c) and 93his.1 but not, except where the applicant makes an express request under Article 23(2), before the expiration of 30 months from the priority date (Rule 44bis.2).					
ш			·			
			Date of issuance of this report 31 July 2006 (31.07.2006)

Citations and explanations:

The following documents identified in the International Search Report have been considered for the purposes of this report:

- D1 US 5211628 A
- D2 AU 39180/89 A ·
- D3 GB 2341804 A

Novelty (N)

Claims 1, 2, 4, 5, 7, 8, 10-12, 14 do not meet the criteria set forth in PCT Article for novelty when compared to the documents D1 - D3.

D1 discloses all the features of claims 1, 4, 5, 7, 10-12 and 14. For example, see figures 1-5 in which item 43 (lower wall) provides the first plunger and item 61 provides the second plunger. Item 62 provides the means for engaging the needle mount. Item 34 provides the collar.

D2 discloses all the features of 1, 2, 4, 7, 8, 10 and 14.

D3 discloses the features of 1, 4, 7 and 10.

The features of claims 3, 6, 9, 13 and 15-19 are not disclosed in the prior art identified above, hence the subject matter of these claims meets the requirements of Article 33(2) PCT with regard to the requirement for novelty.

Inventive Step (IS)

Claims 1, 2, 4, 5, 7, 8, 10-12, 14 are not inventive for the reasons given above. However, the features defined in claims 3, 6, 9, 13 and 15-19 are related to parameters or structures which can be arrived at by the application of normal design procedures when the general technical knowledge about the state of the art is used and hence do not contribute to patentable invention.
